Based on the original script by Tot, one of the creators of online role-play DOFUS, discover the epic world of video games with this madcap manga. King Gelax has fallen victim to a terrible condition: he can't seem to stop himself copulating in a mad effort to sate his uncontrollable libido. The entire kingdom is in danger of being overwhelmed by the king's babies! Somebody has to do something about this evil charm clearly linked to the kidnapping of the fearsome warlord, Crail. Determined to find his grandfather and help Gelax, our hero, Arty le Feca, forms a team to help him on his way: the fearless Bilby, a young Gelite, and a valiant wolf, Vald.
