Ducobu is a loveable clown, a bit of a rascal, and notoriously lazy. A 'quality' that is not without its downsides... You have to be smart to avoid the humiliating dunce's hat! And, of course, his neighbor Leonie knows everything about everything. But this little madam detests copiers... so making eyes at Leonie won't get him the answers, leaving Ducobu with no choice but to invent ever more ambitious cheating strategies. Brilliantly intelligent and full of imagination, Ducobu could of course study just a little bit...but that would just be to easy! With a collection of irresistible gags, Godi and Zidrou have managed to create a touching series which is a true ode to freedom and imagination.
