After being snubbed by Millennium magazine, journalist Mikael Blomkvist is hired to investigate the disappearance of the Vanger heiress 44 years earlier. Blomkvist agrees, in exchange for information on the Swedish cartels. He soon crosses paths with Lisbeth Salander – a world-class computer hacker, expert in close-combat and completely asocial, who dishes out her own brand of justice on men who abuse women. From the very first page, Homs and Runberg take us on a thrilling adventure anchored in Swedish reality, inspired by the writer's own experiences of the country.
