Zick is a young boy who can see ghosts and monsters. In other words, he's a tamer, and his job is to educate them when he can and, when there's no other way, trap them in Dom boxes or eliminate them. The only thing is... he's allergic to monsters. On his adventures he will get to know his neighbour Elena and, with the help of his friend Timothy, discover the world of monsters! Some of them are quite gentle, but others are downright cruel, especially those on the outskirts of the city...
