Namibia, 1948. People have been catching glimpses of Hermann Göring. True, Namibia was once a German colony — but Göring was supposed to have been killed in 1946. Cathy Austin, home from Africa after her mission in Kenya, is sent back by MI5 to find out what's going on. There, Cathy will discover the horrifying truth: an alien race has arrived on Earth and has plans of colonization. The aliens' work on DNA samples from human corpses is far more complex than they imagined...
