At first, it seems that they are not like us. But we very quickly realize that it is rather the other way around – we are not like them! They, the Raptors, who possess the strength, the arrogance of the rich, and total recall...recall of the centuries past, of ancient forces, occult and for ever regenerating. When a young, beautiful and solitary woman attempts to understand, to pierce the mystery, the Raptors hardly react...afleeting stroke from a claw, a snap from a tooth. Only when a couple, descendents of their own blood, pass into the mirror of time, fear strikes their hearts at last. Fear of themselves, the Raptors, and of those forces that they believed were forgotten. Soon, the world we know and everything in it could collapse...
