In ancient times, a people known as the “Handlers” lived in harmony with humans. Among their powers, these beings had the ability to invoke and control chimeras. But as humans’ fear of them grew, mankind decided to eradicate this other race, setting off a centuries-long persecution.

Talli, a descendent of the Handlers, was saved by Lord Koska when she was just a newborn. He decided to adopt and protect her, and she now lives within his castle, hidden away from the outside world.

Sixteen years later, her life is shaken when Lord Wyborg, determined to take her for himself, attacks the castle. Backed into a corner, Talli’s adoptive father Lord Koska sends her east, beyond the Cemetery of the Chimeras, in the hope that she may find her people and survive.

Accompanied by Sir Vilk, Talli will travel across a world of which she knows nothing, seeking her origins and the mysterious ancient power of the Handlers.
