Eleven-year-old Yasmina and her dad lead a modest life in a small city apartment. Luckily, the food-loving Yasmina can whip up just about anything in the kitchen, with an assist from her edible herb books and her friends from the community garden. That is, until the day the garden disappears, bulldozed and replaced by a field of potatoes that are both experimental... and completely addictive! The only solution is for Yasmina to track down and eradicate the source of the problem. A fun and colorful tale for all ages.
