Karl loves video games, and spends a lot of time alone in front of his screen. One day, while he's playing « The Ogre Master, » a bizarre short-circuit causes his screen to implode. When he looks up, Karl finds himself face to face with Karnos, the ogre war-chieftain, and his beautiful ally Faline. They are the companions of the « Ogre Master » — the character that Karl plays in the game! Now they are in the real world, and they are eager to serve their master. How do you hide a hungry ogre and a voluptuous young woman from your nagging stepmother and blabbermouth sister? Karl's life is about to get very complicated...

In this series

L'Antre des pouvoirs

Le Réveil des clans

L'Île des Os
