Once an animator at Disney Studios, Nicolas Keramidas now makes a living as a cartoonist in Grenoble. He's married to a wonderful woman, Chloé, has two energetic sons, and plays soccer every Sunday with his pals. He was also born with Tetralogy of Fallot, a rare combination of four heart defects that in 1973 made him one of the youngest children ever to undergo open-heart surgery. Forty-three years later, when his congenital condition stops him short during a soccer game, he'll have to face surgery again, a saga he details in this moving, humorous, and above all, very human memoir.

In this series

À cœur ouvert

D'AUSSEI LOIN QUE
JE ME SOUVIENNE,
JE ME SUIS TOUJOURS
CONNU AVEC UNE
CICATRICE...

PARIS,
1974.
