If you're a fan of ghastly weather and mysteries wrapped in tweed, then you'll be delighted at this complete collection from the classic series "Albany & Sturgess," enhanced with bonus material and extra British flair. Discover bloody murders and plots that will frazzle your nerves, already frayed by the seemingly never-ending British rain. Rivière and Floc'h present an extraordinary combination of smoke and mirrors, of shadows and ghosts, which provokes in the reader an almost voyeuristic pleasure as it reveals the process of literary creation and its mysterious cocktail of reality and imagination.
