One of the most prestigious symbols of European 'bande dessinée', this best-selling series appeals to a wide public and represents all that is best in the genre. Elegant artwork combined with an engaging storyline and strong colors make for a series which stands out from all others.

The author - E. P. Jacobs - is one of a kind. His love of the extraordinary is manifest in the fantastic scientific inventions throughout his stories, such as the famous 'Espadon'.

The series follows the adventures of Blake and Mortimer and their run-ins with all sorts of antagonists: Septimus, Olrik, Moloch, and many more...

The series has been turned into an animated series, more information [here](#).

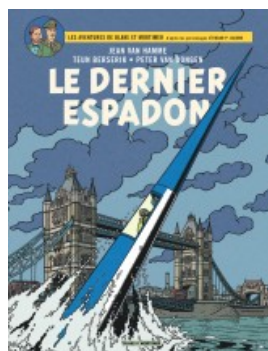

In this series

L'Affaire du collier
