After having followed the 2012 presidential campaign, Mathieu Sapin gave his all to get into the Élysée. Ushered from office to office, he ended up sending a text message to Francois Hollande himself to get the authorisation. The president accepted the project, and introduced Mathieu to the 'château', as those who work there call it. An exceptional report giving an inside perspective on the workings of the Élysée and the busy life of its famous occupant.

In this series

Le Château une année
dans les coulisses de
l'Élysée
