It is February 1930 and the SS Polarlys has just left the port of Hamburg, bound for the far north of Norway. During the whole winter, this steamer is the only link between the populations of the towns along the coast stretching up to the Arctic Circle. For Captain Petersen, it is a routine voyage... until he discovers that there is a murderer aboard and he must get into the role of a detective. Which of the handful of passengers on the Polarlys could have been responsible for the death of the police advisor Sternberg in his cabin?
