Evolution is a documentary comic book centered around the theory of evolution

according to Darwin. But it is also a work of fiction, in which actors put on a play about Darwinian evolution and its political extensions (social Darwinism, eugenics, transhumanism).

During the writing and rehearsing of the play, they will be confronted by an evangelical sect that wants to promote creationism and to stop the play from being performed in high schools at all costs, but also by a rich transhumanist industrialist who wants to influence the text.
