Frank Lee was one of the most extraordinary criminals of all time, brought to life here in a thrilling fictionalized autobiography.

A noted bank robber, Frank Lee Morris also had an above average IQ and was known to be an escape artist, a talent that was mentioned in his admissions file at the federal penitentiary on Alcatraz Island. His most incredible feat is having escaped from the highest-security prison in the United States on June 11th, 1962. Lee and his two accomplices were presumed to have drowned in the San Francisco Bay, but their bodies were never found. Lee's FBI case file remains open to this day.

What if he made it across the bay? The authors imagine his life after his flight from the inescapable prison.
