Jacques is a small lizard who's been exposed to radiation following a mini atomic experiment. As a result, he's evolved overdeveloped intellectual faculties, meaning that he can think and speak. To top it all off, he's also become a giant of 1.3 m, which is really very big for such a little lizard. His appearance in the world of humans will cause impossible confusion, not to mention widespread panic!

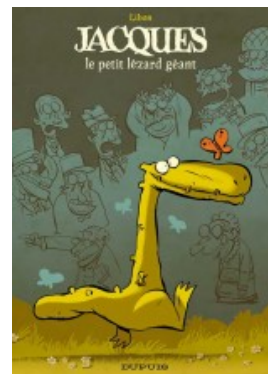

In this series

Relativement discret

Jacques a plein d'amis
