From Domrémy to Rouen, you'll make 15 stops along Joan of Arc's itinerary across France.

Relive the incredible story of the young peasant who, having heard the voice of God, managed to convince the king of France to entrust her with an army to fight the English and alter the course of the Hundred Years' War.

For the first time in the Docu-Comic format—a blend of comics and richly documented pages—you'll be told the story of Joan of Arc as she makes her way to fifteen cities and towns. An amazing dive into the waters of fifteenth century France.
