Perpetually roaming devastated lands, confronted with other survivors who reproduce all the failings that have already destroyed the planet, Jeremiah, the thoughtful one, and Kurdy, the hothead, are in the habit of going where they shouldn't. In this world annihilated by the folly of man, the rule of the game is the law of the jungle in the harsh violence of a return to the early ages.

In this series

Celui qui manque

Tu piges ?

La Bête

Et puis merde
