Totally off-the wall, sisters Kinky and Cosy are the craziest little girls you'll ever come across, their insatiable curiosity often having unexpected consequences! This wreckless pair simply can't resist poking their nose into other people's business, such as their parents' infidelities, or the hypocrisies of the policemen in their comfortable neighborhood. Their various observations also translate into bizarre theories about extraterrestrials, amputees and vibro-massagers. With their childish logic, these adorable pests reap havoc wherever they go!
