What are teenagers up to nowadays? They hang out, form bands with their friends, love rap and techno, play basketball, try to get noticed by girls and, generally, have a pretty good time.

"The Tribe" is a series of one-page gags, charming, appealing and absolutely addictive. Set in a Parisian suburb, its humor should appeal to fans of series like "Friends": never nasty, never vulgar, but full of hilariously astute observations.

## In this series

Fais ta star !

Bouge tes pieds !

Branche ton neurone !
