Bruno Brazil and his Commando Caiman have successfully led many perilous missions. But the last of them went seriously wrong, and several members of his team were badly mutilated or killed.

A few months later, Brazil still hasn't got over the tragedy but there's a new threat on the scene. An elusive criminal is killing all of Brazil's old adversaries, and he seems to be preparing a large-scale operation to conquer space. There have been enough tears, now the time has come for the survivors of commando caiman to get back together and fight once more!
