A strange meteorite falls in the centre of France and triggers a strange epidemic: All those who touch it are reduced to a height of a few centimetres. This is how the society of the Little Men is created, a peaceful society and technologically very advanced, but that has to take the utmost care never to be discovered by the 'Big Ones'. Be it on earth or in space, the Petits Hommes are always ready with Renaud as their leader, to dive helter-skelter into adventure.
