From his childhood in Nantes to his final years in the city of Amiens where he wrote "Around the World in 80 Days", discover the personal life of the literary giant Jules Verne. The child daydreaming as he wandered the port in search of adventure; the rebellious teenager refusing to become a lawyer; the conscientious young writer fascinated by science; the successful author known throughout the world: all the secrets of Jules Verne's life are revealed. Over the course of ten chapters, alternating between comics and pages packed with documentary archives, astronomical photographer and science historian Olivier Sauzereau is your guide as you follow in the writer's footsteps. This volume also includes comic adaptations of three short stories by Jules Verne.
