Maggy is a modern day detective, as deeply English as Sherlock Holmes, but far more hilarious, not to mention crafty! Maggy is currently unemployed, but, with the help of a friend, she's just found a job working as a secretary for a private detective. Naturally snarky, she decides to keep her comments to herself for once... But that doesn't stop her from thinking up insults about everyone and everything around her! Maggy's vision of society, full of vitriol and wit, is shared with the reader through an ingenious internal narrative.
