This 80-page album, half-way between a graphic novel and an artbook, offers us a cinematic immersion in the teeming universe of "Orbital". It features the "first encounters" between galactic people, as well as the main characters of the series, including Caleb and Mézoké of course. We also learn how Nina, a pilot in the terrestrial army, has exfiltrated to become the first human pilot of Névrone; not forgetting the amazing full pages by Serge Pellé dedicated to the different populations of the Galactic Confederation.
