Her fiancé having inexplicably bumped off a public figure before taking his own life, a young woman must cross into the Underworld to stop hordes of demons from overrunning the Earth. In this modern take on the Greek legend, François Corteggiani and Emanuele Barison reimagine the myth of Orpheus, complete with demons and other fiendish creatures... The one-shot comic book Orféa is a truly remarkable crime-fantasy, whose characters run the gamut from demons and voodoo sorcerers to small-town cops.
