The Plot Holes are a squad of fictional warriors who transport themselves into the pages of other books, using their unique skills to save the plots in order to stop them from being destroyed. And Cliff is their newest recruit, a comic creator who's just realized his world isn't real—in fact, it's a complete fiction that literally exists inside a novel. The other members are misfits like him, pulled from unpublished books that couldn't be saved: a manga samurai, a barbarian tiger, a kid from a comic strip, and a vampire assassin. Outclassed by the other members, Cliff sets out to prove his worth to The Plot Holes as they fight to save as many books as possible. The only thing stopping them is Surge, an ex-member who's gone rogue—not only is he threatening to destroy the digital matrix containing them, he threatens to destroy the database of digital libraries all over the world!
