225 * 301

RELEASE
23/10/2009

Before they created their famous Yakari series, Job and Derib first worked on three albums on Pythagore- an eagle owl as chatty as he is.... good at maths! Fresh out of Studio Peyo, watch the artist gradually find his feet in the comedy genre, as the writer develops his signature mix of humour and education which will go on to make the little Indian a huge success a few years down the line. A series of irresistible charm, which you can now rediscover in this long awaited complete collection.

In this series

Intégrale Pythagore
