Tamara is at that difficult age. She knows how love at first sight feels. And she knows how it feels when it's not reciprocated. She is also familiar with the problem of those few extra pounds she'd rather not have, as well as all sorts of other insecurities. She doesn't have any friends of her age, male or female, so she spends most of her time talking to her scales and the mirror in her bathroom...!

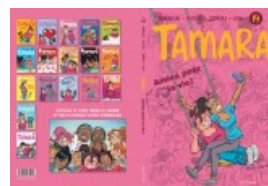

## In this series

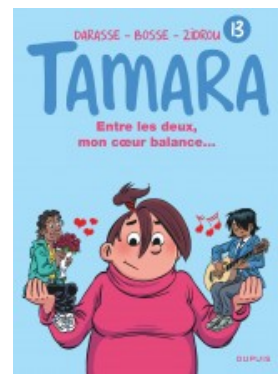

Taille adulte

Grosse !

Amies pour la vie !

Entre les deux mon coeur balance...
