Five of the most significant volumes of the famous Viking saga in one album: 'Le Cycle de Qâ'. After their nordic mythological adventures, the authors have decided to throw their hero and his family into an exotic pre-conquistador America, giving readers another exciting, epic, rich in emotions and surprising twist. 'Le Cycle de Qâ' notably features the first appearances of Treefoot and the treacherous Kriss de Valnor, the discovery of Jolan's power over matter, and Thorgal's meeting with his father from the stars. With so many signature moments in this mythic saga, this collection is not to be missed!
