Quitterie and Auréole kidnap Anne, their best friend, for a trip prior to her upcoming wedding, but the childish pranks have barely begun when Anne informs them that she is calling the whole thing off. And so the weekend begins... "A Hen Party" is a contemporary snapshot of the life of three girls on the threshold of thirty, with all that that can entail, including laughter and tears, motorway cafeterias, guilt, pretences, local dances, Cornelian choices, excessive Saturday night drinking, hypocrisy and friendship gone bad, mobile phone problems and of course... burying the 'young girl' lifestyle.
