School friends during the day, Alex and Julie meet in secret at night to enjoy a little urban exploration. Deserted villas, forgotten clinics, and derelict factories are their favorite playgrounds. But one night, their exploration becomes a nightmare when they come face to face with the ghosts of two young girls in an abandoned mansion. Alex and Julie are certain about one thing: they can see the dead. But what if they're also able to heal the wounds of the past...?

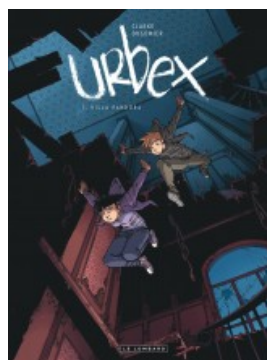

In this series

La fin des cauchemars

Douleurs fantômes

Villa Pandora
