Driver of a colonisation fleet, Massir wakes up ship wrecked from a very damaged vessel. With a background as a civilisation expert in genetic engineering, he starts off accompanied by only two other survivors of the crash. They have a task fit for sorcerers, to escape the strange natural cave where they were stranded. But attraction, hate and jealousy are quick to threaten the delicate balance behind closed doors, especially as Massir conceals his fragile mind, haunted by the ghosts of his own past.
